Community . . . In the know

I QR, do you?

Smartphone fitness hits Brentwood parks and trails giving users more “oomph” to their fitness routines. How about working your core, lower body, upper body and improving your flexibility when you visit a trail or local park?

The City of Brentwood Parks and Recreation Department kicks off QR Fit Trails at three locations: Creekside Park, Oak Meadow Park and Miwok Trail.

QR stands for Quick Response, and if you're not familiar with them, they are typically the black and white square codes you see popping up everywhere. Smartphones can read these codes and furnish the user with a variety of information or videos. With QR Fit Trails, smartphone owners can scan the code at each of five signs placed in a park or along a trail and gain access to a series of short exercise videos. The QR Fit videos are free guided exercises from a certified fitness instructor. Videos are updated monthly to keep users interest and challenge your skills. People of all fitness levels can take part and your

smartphone is the only fitness equipment you need.

Brentwood is the first city in northern California to boast this innovative park/trail system. It is a part of our commitment for a healthier community

as a Playful City and “Let’s Move!” member. “Let’s Move” is an initiative by First Lady Michelle Obama to aid in solving the problem of obesity and to encourage everyone to keep moving to stay healthy.

Choose Your Cover . . . Not all sun protection comes in a bottle!

Hide and Seek — UV rays are strongest and most harmful during midday, so it's best to plan indoor activities then. If this is not possible, seek shade under a tree, an umbrella or pop-up tent.

Cover Up — Although a long-sleeved shirt and long pants with a tight weave are best, they aren't always practical. A T-shirt, long shorts or a cover-up are good choices, too, but it is wise to double up on protection by applying sunscreen or seeking shade.

Sunglasses — Protect your eyes from UV rays, which can lead to cataracts later in life. Look for sunglasses that wrap around and block close to 100% of both UVA and UVB rays as possible.

Get a Hat — Hats that shade the face, scalp, ears and neck give great protection. Baseball caps do not cover ears or your neck, so remember to apply sun protection to those exposed areas.

Sunscreen — Use sunscreen with at least SPF 15 and UVA/UVB protection every time you are outside. Don't skimp on the amount and be sure to re-apply at least every two hours or sooner if you've gotten wet or sweating.

Shop Local!

Find everything you need in Brentwood!

www.shop-brentwood.com

You can help Brentwood's community and economy in a very important way by choosing to support local retailers – whenever you fill the gas tank, buy a gift for the holidays, or buy the week's groceries. We know you have options when it comes to making purchases, however, before hitting “buy” on your computer next time you are shopping, here are a few facts that might make you think to purchase local.

Local retailers are vital to Brentwood's economy.

Did you know:

- Local retailers provide the #1 source of jobs for our community. In particular, many teenagers get their first start in the working world, and learn important lessons associated with employment, thanks to local retailers.
- Local shops support many community events and charitable organizations.
- Brentwood has more than 1.7 million square feet of local retail – the largest amount in the East Contra Costa region – so that you can find almost any category of product and service within Brentwood city limits.
